

Order Entry Module for RSW

Order Entry Works in Conjunction with Profittek RSW and so it shares customer database A/R, and inventory information. This screen can be the main order entry screen for the order desk and can be kept minimized at the front counter or sales desk as required. The module is ideal for retailers with a distribution or web ordering division that need to track orders and backorders.

The display/void screen displays all orders and allows any order details to be displayed. The screen has filters to allow you to find orders quickly. An optional custom interface allows items to be automatically uploaded to, and orders to be downloaded from, a website.

Order #	Invoice #	Order Type	Order Date	Salesperson	Customer #	Total Amt.	Status
1	428720	Invoiced	11/29/2002	Julia	106	\$346.96	I

The system keeps track of back orders, and allows them to be completed easily when stock is replenished. Partial shipment of backorders is allowed.

The system creates customer order forms, picking slips and packing slips in 8.5X11 size. Receipts are issued separately, from any receipt printer appropriate to the business.
